Democratic and Republican Leaders Issue Statements Calling on Voters for Support at Polls Tuesday.

Attempts to Show That With dent for Views, Victory Should Be Assured.

WASHINGTON, Nov. 4.—More appeals to the voters of the country have been issued by democratic and republican leaders, including Acting-Chairman Cummings, of the Democratic national committee; Attorney-General Gregory and Representative Fess, of Ohio, chairman of the Republican congressional campaign committee.

Mr. Cummings said that the women and men at home "who enjoy the great privilege of suffrage have the same responsibility reating upon them Tuenday that rests upon the soldiers who are fighting America's battle for democracy abroad.

There is only one issue," he declared "Shall we help or hinder the president. He has asked for a vote of confidence. Shall we give it to him? There is not one of the allied countries. England, France, Italy or Belgium—that would not give Woodrow Wilson a vote of confidence at this crisis. Are we of the United States less grateful or appreciative? Under his leadership the world in coming to a democracy by fast leaps. Thrones are tumbling. Dynasties are crumbling to dust. Tuesday will give a word of cheer to the president. * ""In the final hour or the campaign, certain political opponents have selzed upon the president's war policy as an object of attack. They profess fear that the president's war alms will not result in a victorious peace. Separately and collectively they should 'stop him' atop him." The news of the day discloses that the president's political critica at home alone are fearful of the success of his policies.

"On the front page of a New York daily, one of the leading Republican organs of the country, I find the following headines." "Wilson Views Followed at True-Council, this over an Associated Press."

Chairman Fess urged "every citizen who respects his right to cast a ballot without official interference, scrutinize closely the activities of the administration which has virtually taken over direction of the campaign to continue the present control in congress." Some of the cabinet members, he said, have been away from the capital campaigning in Republican states and others have issued appeals.

"The president," said Mr. Fess, "armed with wider authority thang is exercised today by any monarch on earth, makes a direct appeal for votes. This most unusual attempt of the head of the government to use colossal power for party advantage in time of war, to try to capitalize the peoples' patriotism for partisan purposes has acroused the nation as nothing since the givil war.

"The partisan issue was injected into the approaching election by men who are admittedly the leaders of the Republican party.

"The president is regarded by the world as its most influential citizen and by our allies as their chief spokessman Nevertheless col. Roosevelt, the accepted unofficial leader of the Republican party in the United States, has by every means in his power sought to destroy the confidence reposed by the people in the president and to weaken the authority with which the latter is clothed. In a more subtle way, the leader of the Republican party in the senate has pursued the same course. "Heretofore these gentlemen could hardly be said to have occupied a more dignified position than the traditional dog that bayed the moon. A very different condition would arise if the party led by them obtained control of either house of congress, where it could prevent the passage of legislation essential to the further carrying out of the president Wilson to warn the people against the danger of this government hecoming one of factions at a time like this." LONDON, Nov. 4 .- King George has

"I offer you and the Royal air force my warmest congratulations on the successful results of the air fighting Oct. It was therefore the plain duty of President. Such achievements testify in the spirit which animates all ranks in their determination to retain our mastery in the air and cannot fail materially to assist the steady advance of my armies in the field.
